

The iPhone app that you've been waiting for is finally here! All the stats, predictions, probabilities, schedules, and results from the professional football playoff prediction engine at <http://www.playoffticker.com> are now instantly available on your iPhone, iPod Touch, or iPad.

As a professional football fan, have you ever heard that you have to be a rocket scientist to understand the NFL tie-breaking rules, figure out which teams will make the playoffs, and predict what your team's chances are? Not anymore, because PlayoffTicker does all of that and more automatically for you! Incorporating all NFL tie-breaking procedures including offensive and defensive points, strength of schedule, strength of victory, down to the toss of a coin, PlayoffTicker will give you the comprehensive information you need to stay on top of the game.

PlayoffTicker Overview

- Shows you instantly what your team's potential is, including current predictions, best case scenarios and worst case scenarios, so you will always know what lies ahead for your favorite team(s)
 - Predicts probabilities for each seed: division winner 1st, 2nd, 3rd, and 4th seeds, plus wild card 5th and 6th seeds for both conferences
 - Informs you when a team has clinched a playoff spot or been eliminated
 - Extrapolates the results of the current season to give the probability of each team winning the Super Bowl
 - Shows upcoming game schedules, times, locations, and predictions as well as results for all previous games
 - Boasts a gorgeous, custom user interface making it easy and enjoyable to track your favorite team's progress and see how they compare to their rivals
 - Is the only commercially available product on the market that provides this extensive analysis and prediction capability
 - Is completely free!

PlayoffTicker Features

- Refreshes data from PlayoffTicker.com unobtrusively in the background, so the information is always timely and up to date
- Requires a network connection only to update statistical analysis - the app may be used offline at any time, allowing you to compare teams, view playoff probabilities, and view past and upcoming games using cached data
- Configureable to only retrieve new statistics from www.playoffticker.com using Wi-Fi to avoid cutting into your AT&T limited data plan
- Uses high resolution, retina display compliant graphics
- Fully tested and certified on iOS 5

PlayoffTicker Requirements

- Works with any iPhone, iPod Touch, or iPad running iOS 4.0 or greater
- Wi-Fi, Edge, or 3G network connection required to retrieve statistical analysis from the PlayoffTicker.com website
